

Credit Checking

“Can they pay? Will they pay?”

It's easy to find the answer – just call **Accounts Receivable Solutions** for a credit check on your customers to reduce bad debt risk and payment delays.

But first get them to complete and sign your **account opening form** - if you do not have one then use ours as below – before you grant them credit

Next, get us to do a **credit check**. It's simple, quick and inexpensive:

- A basic credit check on a business customer costs around \$19 + GST and provides an assessment of their payment history with other businesses
- In-depth credit checks. These are more expensive as they are done via a well-known credit checking and tracing company. This provides a check on both the customer's credit worthiness and comparisons with other firms in their industry.
- Account Opening Forms. If you do not have any or they are out-of-date, then for only \$69 + GST you can use ours and it includes a FREE unlimited photocopying licence AND a personal guarantee form which can be used in certain instances.

Credit checking is just one of the services we offer to protect your customer relationships and your cash.

Contact us now for an assessment of the safety of your accounts receivables:
